Watcombe, Barton Community Partnership.

Watcombe area famous for the pottery factory and the pottery produced over many years, part of the factory still remains on Teignmouth Road. Pieces produced there are now turning up on the Antique Road Show.

The area is made up of diversity between asset rich properties, and what was council house stock. Statistics show some parts as being a deprived area, sitting next to presumed affluent area, the outcome gives a false statistic reading as to what the area is, so there is a constant battle on funding issues.

Watcombe Pafford area is made up of private ownership, and Housing Association tenants.

Watcombe Park in general are asset rich, but are in need of different agencies, there remains imbedded over the years, that the area is forgotten in present and future plans by the local authority.

Following consultation at different events in the area.

Improved Priorities.

- Community Safety
- Jobs
- Transport Links
- Reinstate Empty Housing Properties
- Children and young people
- Older People
- More use of Watcombe Community Centre.
