Torre & Upton Community Partnership

Objective – To grow the Community sustainably and sensitively with good quality buildings raising the standards and expectations for both residents and businesses and provide valuable employment opportunities.

About the area

Torre and Upton Community Partnership area adjoins the centre of Torquay and is part of the ward of Tormohun. Tormohun dates from Saxon times and the medieval parish church still lies at its heart in Torre. Upton contains the civic centre of Torbay with the Edwardian town hall, library and Art Deco offices. A conservation area covers the historic heart of each area and several of the 40 listed buildings in the area are significant to the town's history.

The housing predominantly dates from the 1840s onwards, with a combination of large villas and variously sized terraces. A large modern development has been completed at the former South Devon College site. The density of development in the area is quite high, and there is a strong Victorian street scene.

The main retail area is Higher Union Street which runs between Brunswick Square and the top of the town centre shops. Lucius Street and Belgrave Road also serve as local centres. There are a small number of industrial units around Torre Station.

As in other areas adjoining the town centre, there are higher than average levels of need, deprivation and HMO properties. Several centres and facilities for those in need of accommodation, employment or other

support lie at the top of the town centre near to this area and the drug and alcohol treatment centre lies within it

Community Aspirations

There are already more than the normal proportion of HMO's in the area.

COMMUNITY ASPIRATION Where existing buildings or sites are underused, vacant or awaiting development, temporary uses will be supported, in particular those which benefit the community. Council officers will be expected to take enforcement against landowners or both residential and commercial buildings/sites that are not properly maintained.

Projects

- The Civic Hub shown in the Masterplan for Torquay Town Centre is fully supported by the residents and businesses in Torre and Upton. The library could be extended upwards and updated to incorporate the Connections Office and other public information services. This would release the listed Electric House for other uses. The closure of the Magistrates Court gives the opportunity for a more creative development for the Town Hall car park area. This is expected to have a positive knock on effect for the smaller, individually owned businesses in Higher Union Street. Should the council vacate the Town Hall for purpose built offices, we would support a change of use for the building with a hotel/conference centre being the preferred option.

- Upton Park will be enhanced for the benefit of residents of all ages, providing facilities for recreation and relaxation. This will include the re-arrangement of the sports areas and linking with the coach park. By bringing this forward, we will have a more appropriate setting for the civic buildings.

- The B&Q site in Laburnum Row presents the opportunity for a good quality development providing a mixture of residential and commercial. This latter could be retail and/or office space. This part of Torre deserves proper investment, and the residents and visitors to the area will value standards being raised.

- We wish to see the development at Torre Marine completed, and the serious issues of rising water and run off into adjacent streets dealt with, so that the park that was part of the original plans, can be put in

- place. This would not only create a pleasant open green space for the residents, but also, with the traffic reversal, enhance the area for all those entering Torquay.

Torquay Town Centre Community Partnership and Town Centre Focus Group

Objective – To maintain and improve the Town Centre as a dynamic, vibrant urban environment by working closely with residents, businesses and visitors to our Community

Brief History

Torquay Town Centre contains both quiet residential suburbs and a significant proportion of the major hotel accommodation in the resort, as well as being largest retail centre of Torbay. A large proportion of the area consists of open space. This includes coastline, parks, and recreation grounds, at the walled gardens of Torre Abbey, the rock-faced Royal Terrace Gardens and the private gardens and terraces of numerous hotels. Many of the major buildings are set against a backdrop of mature trees.

maintained and improved as a dynamic, vibrant urban environment

Key Community Aims and Aspirations:

- Improve the Town Centre retail, service and leisure experience to improve footfall and provide employment opportunities by:-
- Becoming the premier leisure destination both night and day
- Creating a more diverse late night offer. Whilst we recognise the value of our late night economy we would like to see a broader offer than is currently available. This could be achieved by encouraging and providing a range of activities for all age groups such as late night shopping and regular food /music activities to encourage residents/visitors to stay on in town.
- Encouraging leisure and sport into our Town Centre and to provide a variety of undercover attractions for tourists and residents.
- Encouraging more people to live and work within the Town Centre
- Providing more eating and outside sitting areas.
- Providing adequate well maintained, accessible and convenient parking facilities
- Creating better connectivity and providing more pedestrianisation.
- Encouraging sympathetic development providing the size and kind of providing the size and kind of premises which modern day High Street names consider attractive, whilst at the same time creating suitable premises for small independent retailers and other uses such as gyms and cinemas.
- Make more of and protect the Town's heritage assets by:-
- Protecting the green and open public spaces from Cary Green, the Pavilions, Promenade to the end of the Princess Gardens and the 'Sunken Gardens', In addition the Royal Terrace Gardens (Rock Walk) which are all covered under one listing with English Heritage. Torre Abbey and its Meadows should continue to be protected by covenant from future developments. Included earlier in document.
- Maintaining Victorian facades where possible to keep the character of the Town.
- Make provision for cyclists in and around the Town which would complement cyclist tourism
- Make access to public spaces easier for the disabled.

- Protect and maintain our beaches – Torre Abbey Sands and Beacon Cove.
- Protect the marine environment and develop a sustainable Maritime Economy

COMMUNITY ASPIRATION

Key Development Sites

Retailing is in the throes of a revolution which has seen high streets up and down the country lose market share year on year. The results are there for all to see, empty shops, derelict buildings, shoppers getting into their cars to go out of town, or not going out at all but shopping online.

"High Streets and town centres that are fit for the 21st Century need to be multifunctional social centres, not simply competitors for stretched consumers. They must offer irresistible opportunities and experiences that do not exist elsewhere, are rooted in the interests and needs of local people, and will meet the demands of a rapidly changing world." Action for Market Towns, Twenty First Century Town Centres (2011).

The concept of 'healthy urban planning' is being promoted by the World Health Organisation to draw attention to the need for planners, public health professionals and others to work together to plan places that foster health and wellbeing

Physical activity, especially walking, has many important health benefits for older adults and the built environment plays a crucial role in encouraging healthy activity for this growing segment of the population. Current UK estimates from the Office of National Statistics (ONS 2011) see the proportion of over 60s rising from 23% to 31% by 2058. Torbay already has an over 60s population which exceeds the 2058 ONS national estimates with 31.4% of its population currently over the age of 60 (2011 census) – placing Torbay 45 years ahead of the rest of the country.

Torbay has the potential to act as a leading example of how the design of buildings and public spaces can facilitate beneficial activity for its aging population as well as improving the health of the wider community. The comprehensive review of Torquay Town Centre and planned growth within the Bay offers a unique opportunity to integrate design guidelines which encourage healthy behaviour and increase accessibility, not just for older adults, but for all residents and visitors no matter what age or ability.

Castle Circus and Union Street
Potential site for redevelopment to create a focal point of the Town and could include a supermarket/superstore, multi storey car park, plus residential development to increase footfall and act as a catalyst for regeneration of the wider area, encouraging other businesses offering a fresh bakery, butchers, fishmongers, greengrocers as an alternative to this proposed development to be re-established in this area. Redevelopment would be subject to taking into account the listed building status of some of these buildings. We would also want to encourage better pedestrian facilities with possibly wider pavements and better links to the Union Street development.

Melville Hill Community Group - Marvellous Melville - Melville Hill should be recognised as a place of historic charm, with a mix of both private and quality rented housing that is affordable. New developments should include up market, and contemporary schemes that introduce a wine bar and café culture enhancing the neighbouring business and tourist district. The area should become suitable for people of all ages with Community facilities. There must be no further agreements for Houses of Multiple Occupation or the sub division of existing properties to form single person dwellings

Fleet Street and Swan Street - Create a water feature to replicate the Fleet. Create a glass canopy to enhance the street scene achieve connectivity with the Harbour providing outdoor eateries/ cafe culture/leisure and bijoux shops – The Fleet Walk shopping experience. Whilst the Victorian warehouse buildings of Swan Street offer potential for residential and retail which would retain the exteriors of the existing buildings.

The Strand, Torwood Street and the Harbour side – Strong aspiration for improvement of this key stretch of Torquay Harbour which could include redevelopment of The Strand buildings, including Debenhams and the Amusement Arcade. Combination of luxury apartments, improved retail, hotel, small restaurants would be welcomed whilst protecting outlook from the Terrace. Make Torquay Inner Harbour accessible to local people by giving it official community asset status.

Upgrade the area of public space on the harbour side of the Strand to allow for a range of different activities, and a higher quality environment with better provision of seating and better management of spaces including attractive signage to guide people to the waterfront. The Old Opera House has been suggested as an alternative site for an Art Centre of for performing arts. Could alternative uses be found for some of the Night Clubs here in order to dilute the heavy concentration of these in this key part of the Town Centre? The Terrace car park is a potential development site with its spectacular views but there would be the need to retain adequate car parking for the harbour area.

The cinema also needs upgrading and possibly relocating. However, if the cinema is relocated we need to be mindful that this will create a large empty building in an area of the Town already facing many challenges and would suggest the possibility of a much needed community centre being

established here. Relocate Job Centre and Magistrates Court to out of Town centre location, thus making room for landmark retail store and unique indoor attraction to help revitalise this end of Town. The Town Hall has been identified as a potential Art Centre. Key will be the preservation of the architecture of this building.

A new Library is required: a modern facility is fundamental to giving the town the correct image; a similar development to Paignton Library would be welcomed, as not just a modern library but a centre offering community facilities such as meeting rooms, and education facilities.

Temperance Street - **T**his is an opportunity to have this area developed as a major shopping area for the town, to take in former works site, and multi storey car park. Suitable uses could be anchor store, quality office space, leisure facilities such as cinema, indoor sports facilities embracing modernisation of multi - storey car park on Lower Union Lane and could extend to Temperance Street car park, also including some residential.

Union Parade and Pimlico - These areas to be developed predominantly for retail, commerce and town centre shopping. Opportunity for a major demolition/redevelopment programme as The Hogs Head and surrounding buildings have little architectural merit and we would welcome a landmark building here to encourage further exploration of the Town; possibly a multi-use community space incorporating a new library, council offices and possibly a gym. Support the creation of an indoor attraction for example promoting the Town's connections with people like Agatha Christie or Isambard Kingdom Brunel. Place canopies over large stretches of the pavement and open spaces in the Town, possibly an atrium over the pedestrianised area of Union Street, to make Torquay the place to shop no matter what the weather.

Market Street and Indoor Market - Create premises as a form of innovation centres to support fledgling retailers to establish their first business. This could in turn be reinforced by significant Town centre residential development and cafe culture. Encourage more residential homes to be created in this area with at least two bedrooms to encourage families to bring life back into the Town out of trading hours.

Pavilion/ Torquay Marina Car Park: The Marina Car Park has the potential for a quality development as this has the best views of the harbour which are currently not exploited. However, the height of any development needs to be considered so that this in itself is not detrimental, and thus become a contentious issue to local residents. In addition the groups have serious concerns about incorporating

development of the Pavilion into the large hotel scheme on the Marina car park and would support further investigation for the re siting of the Pavilion to another location which may then enable a lower rise less intrusive development on the Marina car park. A possible option would be to relocate the Pavilion on to a constructed island (with bridges) in the inner harbour, around which boats could still move/moor. The point of the development would be to: Protect the Pavilion and make it the centre of a revitalised harbour area; provide a waterside dining/entertainment environment unique in the UK that would encourage a more mature and upmarket night time economy and provide the type of retail experience during the daytime best described as "Totnes by the sea." If the Pavilion were moved this would allow a larger footprint for the developer of the hotel/spa to build a wider but lower development that could include a children's play area or be the site for an open air public performance space. Other proposals for Pavilion site include: the Pavilion to become a Community Asset and Marina Car Park to become landscaped recreation area for residents and visitors

Princess Theatre/Princess Pier: Potential to redevelop/extend the theatre to enable it to attract West End Shows whilst not expanding out into the Gardens which should be protected.

Rock Walk: To provide access to those with disabilities a cable car/ funicular railway from the bottom to the top of Rock Walk would be welcomed in addition to it creating a revenue generating opportunity. It would support a high level walkway from Rock walk to a feature development on Princess Pier incorporating a ferry terminal.

RICC/Balloon Site/Marina Car Park: There is a chronic shortage of play and recreational facilities within 200 metres of the sea front and we have identified these sites for such a facility

Area along SW Coast path just beyond Imperial Hotel (Peak Tor): To capitalise on our fantastic coastline, explore the possibility of an open air theatre here to rival the Minnack in Cornwall

Wellswood and Torwood Community Partnership

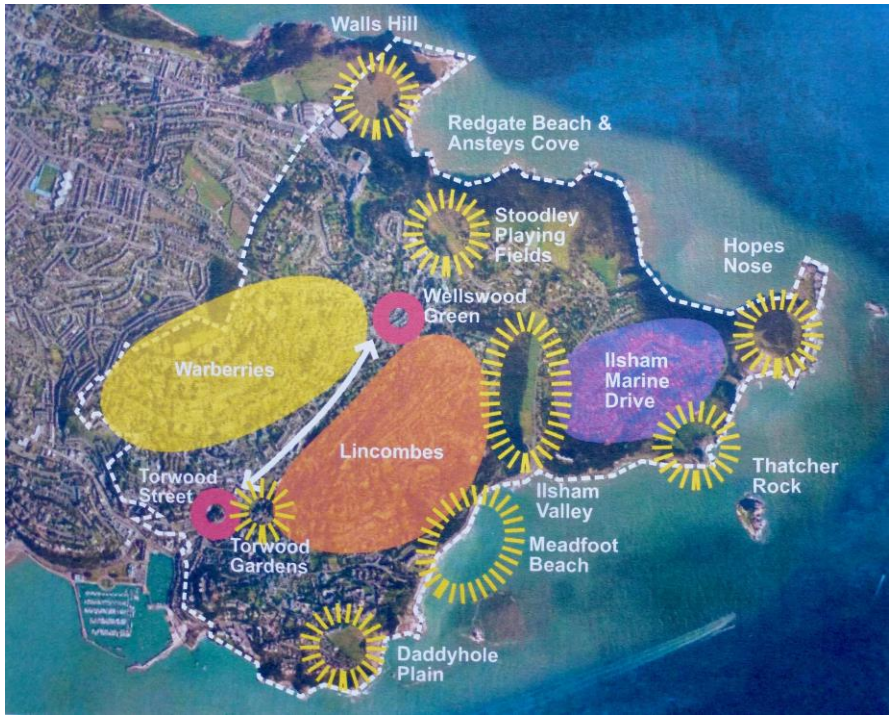
Objective - To Protect and Enhance the existing Green Spaces and Coastline, preserving the special quality of the natural environment and character of conservation areas.

About the area

The Wellswood and Torwood Ward covers two rocky headlands at Torquay's south-east perimeter, bordered by sea. It is an area of 414 hectares, of which almost a quarter is green space. Over 40,000 years ago early man found shelter in the deep caves at Kent's Cavern in the Ilsham Valley and these now form a gateway to the UNESCO Geopark. The area's wealth of geosites, fine Victorian architecture, extensive open spaces, woodland and pine-clad rocky coastline provide the essence of the "English Riviera".

In the early 1800's, as Torquay began to develop as a holiday destination, prosperous families began to build detached villas on the wooded slopes overlooking the harbour. This is seen most clearly in the design and layout of the Warberries and the adjoining Lincombes. The scale of building in an extensive landscaped setting, and its confident execution over nearly 170 acres, became the hallmark for the mid 19th century vogue resort. Its spacious open nature survives today and is protected by the Lincombes and Warberry Conservation Areas.

The area's character is largely defined by the amount of public open space and woodland, and a number of major hotels, including three with four stars. At the heart lies Wellswood Green with its shops, primary school and church. Adjoining the harbour, Torwood Street is home to Torquay Museum and a variety of bars and food outlets.



Local Policies

Environment

Protect, maintain character and enhance:

- All public green areas, improving waste and toilet facilities
- Conservation Areas, and current density of development
- Coastal Path, Geopark and all associated areas
- Supporting Community initiatives to upgrade amenities

Community Aspirations

Promote diversity and prosperity of local businesses in Wellswood and Lisburn Square

Retain Post Office and Pub in Wellswood by designating them Assets of Community Value

Support any future proposals for redevelopment of the Palace Hotel and grounds, while retaining a hotel

Encourage Torquay Museum to develop as a Community Centre

Give consideration to proposals for Kent's Cavern to enhance tourism and education, in line with its importance within the English Riviera Geopark, and improve the access strategy to limit impact on the surrounding area

Support opportunities for redevelopment in Torwood Street area and Terrace Car Park, retaining sufficient parking for local businesses

Traffic and Movement

Prioritise pedestrian access and slow traffic in key areas, addressing much needed improvements in traffic management.

Property densities

Maintain the existing density of to ensure that the open nature of of the area is not destroyed

Projects

Traffic and Movement

1) Address traffic management through Wellswood (Ilsham Road) improving character and environment
2) Provide a safe pedestrian footway along Ilsham Road from the junction with Iisham Marine Drive to the Ilsham Valley
3) Provide a safe pedestrian footway and cut back overhanging trees on Parkhill Road by the Imperial Hotel
4) Provide a natural footpath along the side of Stoodley Knowle meadow, to relieve parking impact on Ilsham Road and improve access to coastal path

Environment

1) Re-open Redgate Beach and Footpath to Walls Hill
2) Support creation of Wildflower Meadow at Stoodley Knowle
3) Improve Coastal Path signage and information
